Profile

- Researcher
- Loves Python & LaTeX
- Data Scientist
- Machine Learning Engineer

EXPERIENCE

• **PhD Candidate & Teaching Assistant**	**HEC Lausanne, UNIL (DESI / Applied AI Lab)** *SNSF Doctoral Fellow (Grant 100018_215542); Teaching Assistant for the Bachelor's course Artificial Intelligence in Business; Research on compact Small Language Models within specialized architectures for education (supervised by Prof. Yash Raj Shrestha & Prof. Michalis Vlachos).*	09.2023 - 08.2028 Lausanne, Switzerland
• **ML Researcher**	**Tom Capital** Statistical & Deep models for financial prediction, cluster management, feature analysis, and Dash supervision interface.	04.10.2021 - 31.01.2022 16.02.2023 - 31.08.2023 Zürich, Switzerland

EDUCATION

• **Engineering school**	SCIA (Machine Learning & Data Science) Major NLP LRE Elective Research Laboratory	2020 - 2023 **Epita**, PARIS
• **Preparatory classes**	Admitted to Ecole 42 and MPSI-MP preparatory classes	2018 - 2020 **Sainte Marie**, ANTONY
• **General Baccalaureate (Honors)**	Awarded at the Engineering Olympiad	2015 - 2018 **Lycée Louis le Grand**, PARIS

OTHER

• **C++/Python**	A chess engine based on a neural network evaluated at 2200 elo
• **Python/Torch**	Competition RecSys: Recommendation system for a commercial site
• **Python/Dash**	Statistical presentation of the results of the SCEI competition
• **Java**	Multi-agent genetic algorithm for finding the best path

ABOUT ME

Age: 26 years old, born 31.01.2000
Interrests: Chess 1950 Elo; Climbing 7A; Pianist, Organist, Cellist, Composer and Concertist (CEM, DEM, more than 16 years of practicing)
Transports: B License; Swiss General Subscription

" Passions do less harm than boredom, for passions always tend to decrease, while boredom always tends to increase. "

LANGUAGES

Below, the dots represent my daily use of each concept

French *C2** ●●●●●●
Native
English ●●●●○
TOEIC 960
German ●●○○○
B2 Baccalaureat level

Python ●●●●●
LaTeX/Shell ●●●●○
C/C#/C++/Java/HTML5/CSS/SQL ●●○○○

Pandas/Numpy ●●●●●
Sklearn/Tensorflow/Pytorch/Dash ●●●●○
Django/Tkinter ●●●○○

TOOLS I USE

- **Organization & note taking:** Obsidian & Notion
- **Programming** : VsCode, Jupyter, Git

PUBLICATIONS

Peer-Reviewed Published Articles

- **Evaluation and simplification of text difficulty using LLMs**
  Authors: *Henri Jamet, Maxime Manderlier, Yash Raj Shrestha, Michalis Vlachos*
  ACM RecSys 2024 (18th ACM Conference on Recommender Systems), pp. 1112–1117
- **Difficulty Estimation and Simplification of French Text Using LLMs**
  Authors: *Henri Jamet, Maxime Manderlier, Yash Raj Shrestha, Michalis Vlachos*
  Springer Nature Intelligent Tutoring Systems (ITS 2024), LNCS vol. 14798, pp. 395–404
- **A benchmark for toxic comment classification on Civil Comments dataset**
  Authors: *Corentin Duchêne, Henri Jamet, Pierre Guillaume, Réda Dehak*
  Extraction et Gestion des Connaissances (EGC 2023), RNTI-E-39, pp. 19–30

Manuscripts in Final Revision & Under Review (Phase I, 2024–2026)

- **Difficulty Estimation, Simplification and Recommendation of French Text Using LLMs**
  Authors: *Henri Jamet, Maxime Manderlier, Dimitri Roulin, Michalis Vlachos, Yash Raj Shrestha*
  Data Mining and Knowledge Discovery (DMKD, Q1), Springer Nature — Major Revision
- *Human-in-the-Loop Multi-Agent Systems and Personal Knowledge Graphs for Language Course Generation*
  Authors: *Henri Jamet, Pamela Delgado, Yash Raj Shrestha*
  TheWebConf / WWW 2027, #7201 (under review)
- *Fine-Tuning Small Language Models as On-Device Rerankers: Accuracy versus Explainability*
  Authors: *Henri Jamet, Michalis Vlachos, Yash Raj Shrestha*
  ECIR 2027, #512 (under review)
- *LATENT SPACE: A Kinesthetic Board Game and Pedagogical Framework for Demystifying Large Language Models*
  Authors: *Henri Jamet, Stergios Konstantinidis, Isna Bustoni, James Arnéra*
  AAAI-27 / EAAI-27 (under review)

Videos of Scientific Popularization

- *Learning continuous molecular descriptors by translating equivalent chemical representations*
  Authors: *Henri Jamet*
  Link to the Youtube video
- *Axiomatic Attribution for Deep Networks*
  Authors: *Henri Jamet*
  Link to the Youtube video

Miscellaneous Articles

- *Natural Selection, Evolution & Multi Agent Systems*
  Authors: *Henri Jamet*
  Link to the article
- *Popularization article on the usual learning protocol for statistical models*
  Authors: *Henri Jamet*
  Link to the article
- *Small study of cellular automata*
  Authors: *Henri Jamet*
